TO "KILL STRIKES."

A Russian Pole, who has been in this country for thirteen years and has studied the emigration question carefully, testified yesterday that the Polish immigrants were induced to come over by agents of steamship companies and contractors, and were "used m the mining districts to kill strikes."

This is the way the protected coal barons guard American labor! They grind the miners down to the lowest wages on which life can be maintained, and when they strike import a gang of "pauper laborers" from Europe to "kill the strike,"

Free trade in coal would be no more than a fair offset for free trade in miners. But the enactment and enforcement of laws against a conspiracy to put up the price of coal and Hall will nominate Roswell P. Flower for Mayor. keep down the price of labor is what is needed.

A " young Democrat," who doesn't want to vote for CLEVELAND, is advised by the selfappointed tooter of the "United Democracy" to "Do what you think right, young friend, and no one will be justified in finding fault with your act." How beautifully this harmonizes with the fish-wife abuse which this same journal bestowed upon 20,000 good Democrats last fall, for "doing what they thought was right" in voting for DE LANCEY NICOLL for District-Attorney.

A well-informed witness before the Investigating Committee confirmed on yesterday what THE WORLD charged and proved a year ago-that " Castle Garden needs entire reor ganization to save the country from trouble." In reply to a direct question, he said that the Commissioners do not enforce the law.

It is John Bull's way to make sure of a verdict or a decision against accused Irishmen by packing the jury or fixing the Court in advance. The tactics in the PARNELL in quiry are nothing new. What gave birth to the exploded tradition that John Bull is a friend of fair play?

To Congressman Cox the thanks of the public are largely due for the improved let. ter-delivery system under the Eight-Hour law; and the band of new carriers who have " got a job " understand their obligations in the same quarter.

f The rocket Boulanges appears to be "com ing down like a stick." The French can forgive much in their heroes, but for a firebreathing General to be spitted like a spring turkey, in a duel with an old civilian, was too much.

A Juvenile Joke. As I was walking through the street l heard two boys talking about their muscular power in throwing a ball. "Out of sight," says one. "I can throw the ball out of sight without throwing it in the air." So they made a formal wager of five cents that he could not do it. Whereupon the boy saw a great deal of mud and threw the ball into it and accomplished the feat and won the bet.

Conditions of the Contest. Following are the conditions of THE EVEN-ING WORLD's joke contest: It is open to everybody-men, women and children. Any person can submit one or as many jokes as desired. The decision, however, will be made on the merits of the best joke in the collection.

The okes must be original, that is to say,

they shall not have previously appeared in print to the kn owledge of the competitor. Each joke must be written on one side of a sheet of paper, or if two or more sheets are required, they must be neatly secured together. Each joke must bear the name of the competitor and the date on which it was sent.

The jokes may consist of from one word to 200. The latter limit must not be exceeded, and competitors should bear in mind that brevity is often 'the soul of wit." A joke of a few lines, if first class, will stand as good a chance of winning the prize as one of

a chance of winning the prize as one or twenty lines.

The prize will be \$25 for the best joke sub-mitted. Bill Nye will read all jokes sent in, and will in his ripe judgment determine the winner. Some of the jokes will be published from time to time, but the publication or non-publication of a joke will have no bear-ing upon the final decision. A joke may be published and yet finally ruled out because it may be a "chestnut."

may be a "chestnut."
The Evening World cannot undertake to acknowledge the receipt of all jokes sent in, other than that the publication will of course be an acknowledgment. Great care, however, will be taken to preserve all jokes received, and to see that judgment is passed upon them by Mr. Nye. It has not yet been determined when the

contest will close. That will depend upon the degree of interest aroused by the con-test. But it will be well for competitors to send in their jokes at once, as in the case of two jokes of equal merit, priority of receipt would determine the prize winner.

Fastening Down the 'Gator-Work for Two

Some weeks ago THE EVENING WORLD CONtained an account of the escape and subsequent capture of a 6-foot alligator, which had climbed over the wire-railing of his tank, in Central Park, and started out on a tour of

The slight taste of freedom which it enjoyed on that occasion only served to render the saurian's dislike to the confines of the tank more marked, and on several different occasions it has made other breaks for lib-erty, fortunately being caught before getting

There was a merry twinkle in Supt. Conk-lin's eyes as he stepped one side, took out his watch and called time; while Shannon, armed with a rope, and Snyder with a fresh chew of tobacco, advanced in double file on the apparently slumbering reptile. Shannon, who had been to the Wild West show, hastily made a noose in the rope and cast it with such dexterity that he almost caught one of the hippopotami in the ad-joining tank.

oining tank. The second round was more decisive. By a sudden and adroit movement, Snyder caught the reptile's tail, which he clung to with a vice-like grip, while Shannon's second cast of the rope, was more accurate, as it caught the 'cator just in front of the fore leg. The reptile's struggles to free itself were terrific. Suvder's grip was broken, and the two men clung to the rope, carefully avoid-ing the threatening tail and equally danger-

ous teeth.

Finally, exhausted by its struggles, the alligator remained motionless, but distended to double its breadth with rage.

The rope was secured, and the men retired to their corners and rubbed each other

down.

Time was again called by Supt. Conklin. and Snyder, still fresh but panning a little, stole up in the rear and again secured a tail-grip, while Shannon hastily took a half-hitch around the 'gator's nose. Then, before the reptile could make up its mind for another struggle, the leather collar was buckled around its neck and the chain secured to the

iron stake.

Referee Conklin at once awarded the vic Referee Conkin at once awarded the vic-tory to the men, who modestly received the congratulations of their comrades. It might here be added that when the reptile's wrath evaporated the swelling also decreased, so that now the collar has slipped over its forelegs and is firmly located in the centre of its body, whence no amount of struggling can dislodge it.

Some Valuable Keepsakes Which Have Fallen into Valgar Hands.

In the window of a curiosity shop on the east side, lying among a lot of old junk, an EVENING WORLD reporter saw the sword and cabbard that formerly belonged to a man who was once a prominent county officer. The sword is elegantly mounted with the

Masonic insignia, and probably cost \$60 when new. The owner of the shop asked \$20 for it.

When asked how he came in possession of When asked how he came in possession of the relic he said he bought it at a pawn-broker's sale. He admitted that he practised a little blackmailing game by keeping it in the window exposed to curious eyes, but excused himself on the ground that he "must sell it one way or another, and if I can't do it any other way I must shame some of his friends into buying it."

He also had an engraved badge, made of gold that was presented to a wrestler by a

A reporter was recently invited by Mr. H. P.

Baldwin, the courteous General Passenger Agent of the Central Ratiroad of New Jersey, to spend i day on the line of this popular road for the purpose of learning what new features had ocen added in railway and steamboat accommodations by this progressive company.

Selecting Sun iav as the day and the superb new steamer Monmouth as the mode of conveyas ce the writer, in company with 1,000 happy excursionists, left Pier S, North River, at 2,30 A. The Monmouth is all that has been caimed for her as regards luxury, comfort and speed, being undentably the Rectest boat in the bar, and this day our time to Sandy Hook was 55 minutes. A number of the passengers were breakfasting in the well-spointed restaurant on longd, and the reporter Joined in the repast. a peradventure; the frequency of boats and trains, the admirable management in every department of the Central Hairoad of New Jersey, added to the knowledge that one can spend a day and evening by the sea and return at 10, 40 P. M., enjoying one of the grandest moonlight sails of the season, all combine to make the Sandy Hook route the ideal one to all points on the Jersey shore. Among so many attractive resorts one cannot fail in a search for | leasure and nospitality, and the writer on the return train dropped off at Seabright for a dip in the surf and a dinner at intronony Hall with the prince of landords, Mr. Ed. LOTS OF MONEY IN BOBTAILS.

With but One Horse, No Conductor and Short Route, Each Car Makes a Fortuse. The idea generally prevails that the reason conductors are not employed on most of the cross-town lines is because the companies cannot afford them.

This is doubtless a fallacy, and the arguments to prove it to be such are many, and should be convincing. They are these :

should be convincing. They are these:

Crosstown roads are not more than onethird as long, as a rule, as the longitudinal
lines. Their rolling stock is lighter, and so
is their track. Less money is required to
build and equip, and much less to keep their
road-bed in repair, than is expended by the
lines running lengthwise of the city.

One horse, too, does the duty of nearly
four animals on the long lines. Passengers,
as a ways thing, ride a shorter distance in

as a usual thing, ride a shorter distance in them, but they collect for a ride of an ave-nue block as much as the Third avenue line would for a ride from the Post Office to Harlem with two men to look after the safety of the passenger and two horses to draw the Of course the longer lines have more of territory to draw on for their patronage, but how much more when it is considered that the cross-town lines have a goodly rortion of Long Island and a large share of the Western world which reaches New York by the East

Long Island and a large share of the Western world which reaches New York by the East and North River ferries?

The comparison of the cost of maintenance and running and the receipt of the two classes of surface roads undoubtedly gives the bobtail lines the benefit of greater profits, and while actual figures are not given because not at present obtainable would seem to indicate the undoubted ability of those companies which maintain and operate such objectionable systems of transportation to employ conductors for the safety of their patrons and the public generally.

Another appeal is made to twe ladies who were passengers in the car which killed Mrs. Levy on July 10 to come forward and do their duty by the public. The officials of the grasping corporation are doing all in their power to thwart the deserved prosecution which is being waged against them and their system.

which is being waged against them and their system.

The lady passengers in that fatal jugger-naut should understand that is their duty to the public to tell what Driver Duffy was doing on that occasion. There is proof that he was engaged in making change, but they could clinch that fact beyond the possibility of denial.

They should communicate what knowledge they have on the subject at once, laying aside all personal feeling to assist in saving their fellow beings from being sacrificed as victims to the jigger juggernaut.

'The Thirty-fourth street line, too, is very dangerous down the hill in First and Second avenues. The whole trouble is that a driver can't do all that is required of him on one of these bobtails."

FUN FOR AFTER DINNER Having but Little Fun.

[From Texas Siftings]

. Pretty Sunday-School Teacher (at picnic)-- Vot don't seem to be having a very pleasant time, Mr. Siray. You have sat here quite alone for a long Itime.
Mr. Sissy (in a low, guarded tone of voice)—Yes,
Miss Mande, and I shall have to remain here until all have departed. I accidentally sat down on a custard pie.

A Misfit. [From Judge.] Grafton -Aw, Cholly, wheah did you waise that widiculous little stwaw hat?

Baboony-Wiciculous? Why, deah boy, I had it made to awdaw.

Grafton—The deuce! For youaw own head or your cane's ? Withdrawn from the Knights PITTEBURG, July 31. -Local Assembly 6660, K. of , has withdrawn from District No. 8, reducing

Boss Baker Beyer has increased the wages of his men is a week each, and reduced their working time as hour a day.

The Boston Central Labor Union has denounced the Interstate Commerce Commission, and de-mands a Government telegraph.

Progressive Painters' Union No. 1 has refused to pay any more money into the treasury of No. 49 until the present trouble is settled. The troubles in No. 49 have provented the forma-tion of the Building Trades' D strict, which locals attached to that body are desirous of having. Assistant Factory Inspector Francy and four deputies are inspecting the downtown factories and will probably complete their labors this week.

The framers have successfully reasted a reduction of wages attempted by Herman Raemann, of Second avenue and One Hundred and Seventeenth street. Several local assemblies of printers and kindred trades have joined in an application for a charier for a National Trade Assembly in accordance with a request from D. A. 64.

Any member of the Central Labor Union Piculo Committee who is absent two consecutive meetings will have his seat declared vacant and a new man will be put in his piace. The union framers have caused contractor Ohlsen

to employ union men on his jobs at Ninth avenue and Thirty-seventh street, Eighth avenue and Fritteth street and Ninth avenue and Seventy-second street. Another job in Ninth avenue and Seventy-sighth atreet is to be struck unless union men are engaged.

One Fact

is worth a column of rhetoric, said an American states man. It is a fact, established by the testimony of thousands of people, that Hood's Sarsaparilla does care scrotule, salt riseum and other diseases or affections arising from impure state or low condition of the blood. It also overcomes that tired feeling, creates a good appetite and gives strength to every part of the system. If you need a good blood purifier, tonic or appetizer try Hood's Sarsapanila. It will do you good. Hood's Sarasparilla is sold

Mrs. Geist met THE EVENING WORLD phyician at the door yesterday full of gratitude. for her child, owing to timely treatment and a free ocean sail, had almost recovered. A wonderful change was to be seen.

A sorrowful case is that of Mrs. Zielber. ger's baby, of 66 Goerck street. The little one had been under the care of THE EVENING

doctor for shother free sail, which was granted.

The Keenan children at 5 Batavia street, have entirely recovered under The Evening World doctor's care. Mrs. Keenan desired the physician to see a sick child of a friend in Park street, near Duane, and was guided these he bright even Katia Keenan.

the physician to see a sick child of a friend in Park street, near Duane, and was guided there by bright-eyed Katie Keenan.

Here was a pitiful case. A boy about eight years of age had been ill with pneumonia, but was now convalescent and would soon be able to go out. But he has no shoes and it is unsafe to venture without them. The weak, thin little invalid was reclining on an old couch, trying to while away the tedious hours by fixing an old and decripit pair of roller skates. A picture book would be very welcome to this sick child.

His parents are very poor, but worthy. His father is a type moulder out of employment, and his mother is patiently waiting for Willie's entire recovery so that she can go to a hospital to have an operation performed. They have been forced to sell part of their scanty furniture to pay their rent to keep from being turned in the street.

In a rear house at 51 Jackson street lives a family named Caldon. Their baby, five months old, has had almost since its birth a troublesome eczema, although in all other respects perfectly healthy, and would be a very pretty child but for the affection of the skin.

very pretty child but for the affection of the skin.

The little one had been treated by a quack doctor, whose application had aggravated the disease very much. The poor little baby was suffering so severely from the intense itching that its mother was compelled to the its hands to keep it from tearing its face.

A soothing and cooling application was given by The Evenno World physician, which relieved the little one's agony very much and gave the tired little child a chance to court "Nature's sweet restorer—balmy sleep."

To the Editor of The Evening World : Please say to World physician that any prescriptions he may send us will be prepared free of charge until Oct. 1, 1888, in cases of complete indigence. Very truly, R. H. LUTHIN, Wholesale and Retail Druggist, 191 Bowery.

POOR BARTLEY CAMPBELL.

Never Lost Heart. Bartly Campbell, the well-known play-

ber, 1886, suffering from paresis, induced by overwork. It was thought some time ago that his mental faculties would be restored; he gained fiesh and became more subdued. This condition of things, however, did not last long, and for several months before his

This condition of things, however, did not last iong, and for several months before his death he was confined to his room.

Bartley Campbell was born in Pittsburg forty-five years ago, and began life as a reporter on the Leader. Subsequently he became dramatic critic. Later he started the Southern Magazine in New Orleans, but it met with a speedy death. Mr. Campbell was placky and never lost heart.

His first effort as a play-wright was made in 1870, when he wrote a very sensational piece called "Through the Fire." It was founded on the railroad riots in Pittsburg and scored a failure. It was given afterwards under another name, but with a smilar result.

Success, however, came later. Mr. Campbell was a most prolific writer. Among the plays that came from his pen were "Fate," "Peril." "On the Rhine," "Risks," "A Heroine in Rags." "Van the Virginian," "How Women Love," "The Heart of the Sierras," "Clio," "Fairfax," "The Galley Slave." "My Partner," "The White Slave," "My Geraldine," "Siberia." "Separation, "Friend and Foe" and "Paquita." At one time Mr. Campbell had four companies on the road.

time Mr. Campbell had four companies on the road.

Of late years he became involved in finan-cial difficulties and his career ended by the appointment of a receiver to take charge of his affairs. Mr. Campbell leaves a widow and two sons. He will be buried to-morrow by the Actors' Fund from the Little Church 'Round the Corner.

Third street dock and at about 10 a. M. the dock at College Point. L. I., was reached. Here the excursionists were met by Mr. Donnelly, of Donnelly's Boulevard Hotel, who with the standard bearer, Theodore Schmoll, led the march to the hotel. Prof. Merr's band followed the leaders and then came the officers and members.

After a very enjoyable breakfast the games of football, baseball, &c., were indulged in. In the game of football William J. Bennett, Superintendent of Station D, East New York, excelled every one, with August Miller, of Waterbury, Conn., second.

Dinner was taken at about 4 p. M., and after three hours more of enjoyment the club started for home, reaching the city at 8.30 p. M. The procession was then formed at the dock and the club went to its headquarters, where revelry was kept up infil a late hour. There were planty of fireworks along the line of march, especially at the headquarters.

Among those most prominent in attendance were: were:

Sergt. Griffith, Alderman William Tait, Assemblymsh Bol D. Rosentsal, Theodore Behmoll, President Hienry C. Hoffman, Vice-President Henry A. Richards, Secretary Samuel Jackson, Treasner Louis Schmoll, jr.; Sergt.-at-Arms L. Warschaner.

The Arrangement Committee included J. Brookman, Chairman; L. Schmoll, St.; de Reuschkolb, M. Erlanger, Louis Mindheim.

one had been under the care of The Evening World physician for the past two weeks. It seemed to improve somewhat at first, but later it became worse again. It is very weak. The poor mother, who is a Polish woman and has not been in this country long, does the best she can for the child, carrying it constantly, but it is very difficult to make her understand how to prepare the food properly. A bright-eyed little fellow of five years was seen at 64 Goerck street. His name is Johnnie Stern. Poor Johnnie has curvature of the spine. Owing to the breaking down of the spine. Owing to the breaking down of the spine old man he is considerably shorter than he was a year ago, which worries him a great deal, as he thought he was going to be a "great big man."

Last week his mother took him for a free sail to Rockaway on Post's line. He told everybody aboard that his uncle owned the boat and had given him a ticket. He thought everything was done for his special comfort and accommodation, and although he got a little seasick, it did not detract enough from his enjoyment to deter him from begging the doctor for another free sail, which was granted.
